# PET EXTREME®

SERVICE & SELECTION UNLEASHED!™

## Why BLUE?

Because only BLUE is made with the unique combination of high-quality, natural ingredients plus exclusive Life-Source Bits.

We love our dogs and cats like family so we want to feed them with the same care as family. That's why BLUE™ is made with only the finest natural ingredients plus the active nutrients and antioxidants of our exclusive, cold-formed LifeSource® Bits.

You'll be surprised to know that many of the well-known pet food brands contain ingredients like chicken by-product meal or poultry by-product meal, corn, wheat, soy or artificial preservatives. When you compare dog food or compare cat food, we think you'll find BLUE is a better choice—one that you can feel good about giving your beloved four-legged family member.

## Natural Balance

Natural Balance was built on the premise of helping animals, and we have never nor would we ever allow any testing that would be considered harmful to an animal. We do not conduct laboratory testing on animals, whatsoever.

All of our feeding trials are conducted in the animal's own environment, in conjunction with veterinarians, kennels, breeders and pet owners, to ensure that all Natural Balance products are extremely palatable, nutritious and the best possible formulation for the health of your pet. Our feeding trials are a positive experience and enjoyable for animals!

No matter which line of my Natural Balance Pet Food you choose, you know it will truly be The Food For a Lifetime

# Eukanuba Dry Dog Food

Assorted. 33 Lb. Bags.

# 32<sup>99</sup>

We believe dogs evolved from carnivores and should be fed accordingly. That's why we use only high-quality animal proteins, mainly chicken or lamb – not vegetables - as the principal source of protein in Eukanuba dog food. The high-quality ingredients found in Eukanuba are selected based on the nutritional benefits they provide for your dog. And that also holds true for the ingredients that make up Eukanuba's Vital Health System™. Whether it's natural protein, fat, calcium, or fiber, Eukanuba formulas have the right blend of ingredients for a specific breed, life stage, and lifestyle, to make them essential to your dog's diet.

Since 1970, Four Paws has been committed to manufacturing the highest quality pet products available on the market. We are equally committed to providing the finest customer service in the industry. Every product is tested for safety and usability for both owner and pet. Our goal is both customer and pet satisfaction and enjoyment. Our employees provide outstanding customer service and will ensure that you and your pet remain happy and satisfied customers.

Oral hygiene should not be forgotten or neglected. It should be part of your regular grooming routine. Four Paws offers a full line of oral hygiene products for your pet to reduce the harmful effects of plaque build up that can lead to tooth decay and gum disease.

# PET EXTREME®

SERVICE & SELECTION UNLEASHED!

## Nutro Adult Dog Lamb & Rice Formula

Formulated to provide 100% complete and balanced nutrition, including all the essential vitamins and minerals your dog needs for a strong immune system, and overall good health. It does not use chicken heads, feet or intestines, which may be found in products that contain chicken by-product meal.

Like all Natural Choice® products, this formula contains no ground yellow corn. We use highly digestible rice, lamb protein and high levels of linoleic acid for healthy skin and coat, and strong muscles. Natural Choice® Lamb Meal & Rice Formula provides the premium nutrition your dog deserves for a healthy, happy and long life.

A very special price...

## Iams Dry Dog Food

We abide by incredibly high standards to ensure the quality and safety of our ingredients to make sure our nutritious formulas are healthy and safe for pets. We insist on constant and rigorous ingredient inspections throughout the manufacturing process, from initial truckload sample screenings to the moment our pet food bags leave the plant. We run more than 120 quality assurance tests on each bag of Iams pet food. We also pull product samples for complete nutritional analysis of each batch of formula produced, and all of our ingredients are evaluated based on strict nutritional quality and safety specifications.

It is this commitment to innovation and quality that defines Iams, from our pioneering research in nutrition to our high standards of safety and ingredient testing, to our efforts to help pets worldwide live long and healthy lives.
